

washington dc update

FY 12 BUDGET REPORT

This is the first of several reports concerning President Obama's proposed budgets for the Army Corps of Engineers and the Bureau of Reclamation for FY12. These proposals will now go to the respective authorizing and appropriations committees and subcommittees of jurisdiction in the House and the Senate where these proposals will be reviewed and a final appropriations bill written. Remember that while there are 535 Members of Congress, only the relative handful who sit on these key Committees have much to do with the final funding figures for the upcoming fiscal year.

Budget Updates on Proposed FY12 Budget for the Corps of Engineers, Bureau of Reclamation, and EPA

February 16, 2011
