

Bureau of Reclamation Issues Two New RFP's for Title XVI Water Reuse Projects

December 13, 2010

The Bureau of reclamation has just issued two new RFP's concerning Title XVI Water Reuse Projects. One RFP contains \$20,000,000 for actual construction of projects and the other \$1,200,000 to help support feasibility studies. We have attached both for your review and information.

Please note that the "Current Closing Date" for applications is February 11, 2011 with awards expected on March 13th.

\$20,000,000 and \$1,200,000 for construction/feasibility studies will not go very far in the arid west. But until the issue of Congressional earmarking is clarified, the decisions made by the Bureau are going to be pretty much the only game in town.
